OUTREACH DEPARTMENT**

Eden Family of Services Autism Curriculum Series

2008 Curriculum Series Edition

The Eden curriculum is a comprehensive series of teaching programs designed to provide a valuable resource to enable professionals and parents to effectively teach students with autism. The newly revised Eden Family of Services Curriculum Series reflects the collective experience of Eden faculty during the past 30 years of providing comprehensive, individualized services to children and adults with autism.

EDEN FAMILY OF SERVICES AUTISM CURRICULUM SERIES

Employing a hands-on approach, the revised curriculum includes practical strategies for each teaching program. In addition, each skill area includes a systematic assessment and flow chart to support appropriate goal selection. Teaching programs are clearly written, with step-by-step instructions, and include target behaviors, prerequisite skills, criterion, measurement, materials, procedures, and prompting techniques. Programs have been field tested with hundreds of students and adults with autism. Teaching programs are grounded in the principles of applied behavior analysis and address essential skill areas such as cognitive, self-care and domestic, speech and language, vocational, physical education, recreation and leisure.

The revised curriculum includes new designs, graphics, and organization, more programs, and an enhanced “user’s manual” with decision tools to efficiently analyze and collect data and choose goals.

- Teaching programs are clearly written, with step-by-step instructions.
- Each volume includes flow charts to assist with selection of goals.
- Teaching programs include target behaviors, prerequisite skills, criterion, measurement, materials, procedures, and prompting techniques.
- Teaching programs and data tools are presented in binder format for easy use.

Examples are included of teaching environments, and program materials. Strategies that work, including troubleshooting guides
